MIST O 霧光

LED Magnetic Plant Light

Enjoy The Greenery Everywhere
Making Glorious Green Scene to The Next.

Rated Power	Luminous Flux	CCT	Input Connector
10W	500lm	2700K 4000K 7000K	USB - C

Small O, Strong Power Ever

Inheriting ONF's many years of experience from aquatic plants to amphibian plants, the most complete functions are condensed into 88X27mm mini space. MIST O has built-in magnet, advanced the space usage and activated the greener space.

Magnetically · Dimmable · Brightness Memories · ColorFull LED · Color Temperature

Flexible Installation And Applications

The MIST O is magnetic and comes with mounting hardware in the form of a sleek steel disc that helps the unit attach easily and securely to any desired surface. MIST O can be used on cabinets, shelving, display cabinets and more - Installation is simple, remove the protective backing from the disc, adhere to the desired location and place the MIST O unit on. The magnetic hold is strong and secure.

Effectively Meet The Needs of Plants

Do you know that providing light source to plants isn't enough? What is more, providing different levels of brightness to achieve their growth is more important. The four-level dimming functions can be adjusted according to the size, type, growth condition of the plant, and their different needs of light. In addition, the gradual brightness adjustment provides more comfortable feelings to your eyes.

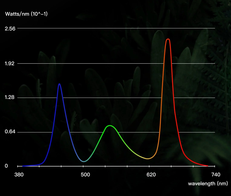
25% —— 50% —— 75% —— 100%

Built-In Memory, More Energy Saving!

The built-in memory function of the MIST O can display your current setting after resuming. It also can connect to an extra timer, control the light source accurately and save more energy.

Superior to The Sun
ColorFull LED

Compared with sunlight, ONF not only captures the most beneficial wavelengths for plants, but also excels in color rendering technology to develop ColorFull LED, which can stimulate plants' growth and allow viewer enjoying more vibrant color.



A Cozy, Natural Feel.

The color temperature can be adjusted from 2700K - 4000K - 7000K to match the outdoor environment or home lighting, which is perfect for emulating the natural hues provided by the sun.

Endless Possibilities

MIST O's lighting stand kits contain two different height brackets that can be used with the growth of plants, and the distance can be adjusted back and forth. Provide another easier way to use MIST O.

＊Light fixture and lighting stand kits sold separately
