

Nature Aquarium photograph collection ADA SUIKEI CREATORS Vol.02

Releasing the second volume of works by the five Suikei creators who inherited the Nature Aquarium thought process and production technique put forth by Takashi Amano. Each creator's body of work has increased in volume and quality since the first volume, and this second volume also includes the creator's own careful selection of works. Plus, aquascapes from last year's "NATURE AQUARIUM EXHIBITION 2022 OSAKA" and those now on display at "AOAO SAPPORO" aquarium in Sapporo are also included. Please do recommend this, along with volume 1, to your customers as a reference book for creating Nature Aquarium.

Dimensions: W297xH182 (mm)
Pages: 36 pages in full color / 8 pages in black-and-white
