

# MAGNET LIGHT G SLIM

We are pleased to announce the release of the "Magnet Light G Slim". The "Magnet Light G Slim" features a more refined design, adopting a slimmer body model with a matte texture and smooth paint finish. Its minimalist form is designed to elegantly showcase life forms in display cases. Additionally, by changing the power connection part of the lighting unit from the previous pin jack to a USB (Type C) terminal, both miniaturization and weight reduction have been achieved, reducing the thickness of the body from 19mm to 12mm (The connection on the power adapter side remains the same with a USB (Type A) terminal.) The number of LEDs, light intensity, and power consumption remain the same as the previous model, ensuring the same user experience of an optimal product for small aquarium plant cultivation with an ideal presence. It can be used in combination with Neo Glass Air, Glass Pot, CELL, and more.

**Size:** Ø90, H12mm

**Features six button-activated brightness levels**

\*USB adapter is not included.

Please purchase a commercially available 5V2A USB adapter (Type-A) separately.

**Input voltage:** 5V

**Power consumption:** 5V2A 9W±10%

**Rated power:** 10W

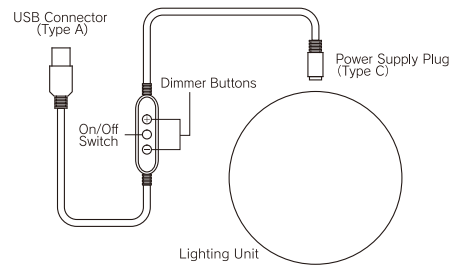

**Illuminance:** 5V2A About 16,000Lux  
(Central illuminance at 10cm distance)

**Color temperature:** About 7,000~8,000K  
(Due to the nature of LED lighting, there are variations in color temperature)

**LED:** White LED (green bulbs) x 20 lights

**LED lifetime:** Over 30,000 hours  
(Subject to operating environment)

**Operating temperature range:** 0~35°C
