

ADA NATURE AQUARIUM

Launch of New

SUIKEI SHEET

We are excited to announce that ADA is now offering the SUIKEI Sheet, a useful item for layout creation and maintenance. This polyester sheet features an anti-stain coating on the inner side, offering excellent waterproof properties and high durability. After use, it can be easily cleaned with a simple rinse, and kept clean readily. By fastening the buttons at the four corners, it can be shaped into a tray-like form, preventing contents from spilling. It's particularly useful for handling layout materials such as stones and driftwood, or for placing under a bucket, allowing you to work without dirtying the floor. Whether for new layout projects or everyday maintenance, the SUIKEI Sheet is versatile and practical.

SUIKEI SHEET

Product Size: 750mm x 750mm
Size when fully unfolded.
