**AQUASKY RGB
BASIC 300**

We are excited to announce the launch of the "Aquasky RGB Basic 300," a lighting system designed for the W300-sized aquarium. This product features RGB LED chips as its light source ensuring optimal growth of aquatic plants while maintaining their color rendering properties, even in smaller aquariums. With the increasing popularity of compact aquariums as part of home interior designs, this lighting system allows to enjoy a full-fledged Nature Aquarium, regardless of tank size. The unit is equipped with a touch-sensitive switch for easy operation, offering three levels of brightness adjustment with simple and user-friendly design.
