W450 × D270 × H300mm (Glass thickness: 5mm)

AQUASKY RGB BASIC 450

Touch Switch

Following the successful launch of the AQUASKY RGB BASIC 300 in February, we are introducing a new addition to the series—AQUASKY RGB BASIC 450. This product features RGB LED chips as its light source ensuring optimal growth of aquatic plants while maintaining their color rendering properties, even in smaller aquariums. With the increasing popularity of compact aquariums as part of home interior designs, this lighting system allows to enjoy a full-fledged Nature Aquarium. The unit is equipped with a touch switch for easy operation, offering three levels of brightness adjustment with simple and user-friendly design.
