

ADA NATURE AQUARIUM Super Jet Filter ES-900 will be released

Super Jet Filter ES-900, which is an external filter optimal for Cube Garden W90xD45xH45cm, will be finally released. A highly robust stainless-steel canister, and a special magnet pump that flow rate reduction due to clogging is unlikely to occur (made by IWAKI CO., LTD), are adopted, and Bio Rio G, which is glass filter media suitable for biological filtration, is newly added to this model as a standard accessory.

Please kindly understand that we may have to adjust your shipment quantity even if you place an order because the production quantity is limited for the first shipment.

[Product Specifications]
