

# DOOA Glass Pot MARU 130 by itself will be available

"DOOA Glass Pot MARU 130", which has been sold as a set with Magnet Light G since last summer, will be discontinued as a set, and will be sold individually with a new package design from the end of April.

DOOA Glass Pot MARU130 is suitable for layouts with stones and driftwood, and for growing large size plants, like Lagenandra and Jewel Orchids.

The next issue of Aqua Journal (Vol.331) will introduce layout examples of each size of glass pot, as well as know-how such as light intensity and water level according to plants. Please take this opportunity to promote Glass Pot MARU 130.
