

DOOA, an inspiring brand, helps you enjoy aquatic plants more freely. Minimal and easy, and designed as a platform allowing everyone to nurture plants indoors. Feel closer to nature, and bring beauty into your life.

Watch tiny droplets fall slowly from the lid DOOA Glass Pot SHIZUKU

[Available on September 10th, 2020]

A teardrop glass pot, “SHIZUKU” , will be newly available from the DOOA Glass Pot series. Watch water droplets fall one at a time into the glass container from a tiny hole at the center of the glass lid, and make your regular watering easy and fun. Inside the container, you can grow a piece of Wabi-Kusa or epiphytic orchids attached to drift wood, create a miniature paludarium using DOOA Jungle Soil, or try many other ways to enjoy gardening.

Placing a plain Wabi-Kusa Mat under a Wabi-Kusa can help retain water and keep it in a clean condition.

Glass Pot SHIZUKU

Glass container: Maximum diameter Ø170×H200mm

Glass lid: Maximum diameter Ø103×H20mm

*As this product is handmade, there may be a slight size variation.

Add water to the glass lid and let droplets drip down one by one from the center. It makes daily watering more delightful.

It has holes on the upper part for aeration.

Drain accumulated water with DOOA System Paluda Drainage piece if necessary.
