

PALUDA LIGHT II 300/600

PALUDA LIGHT II is an LED lighting fixture specifically designed for paludariums. By individually adjusting the RGB primary colors of light, it illuminates tropical plants in a way that enhances their natural beauty. The lighting unit can be installed on aquariums with widths of 300mm or 600mm. Additionally, it features a touch switch, allowing for ON/OFF control and three levels of brightness adjustment to suit the characteristics of different plants.

A touch switch with three levels of adjustable brightness.
