MIST O⁺

Functional upgrade

App Control, Customization Made Easy

Schedule daylight cycle in palm of your hand.

Enhanced Brilliance

Special light cover design increases overall brightness by **35% - 55%**.

Better Space Utilization

Automatically switch lights without installing additional timers, greatly improving space efficiency

MIST O⁺

Magnetically

MIST O+, with the magnet on the top side, can be attached to any cabinets, shelving, display cabinets by using an adhesive disc prepared by ONF.

Dimmable

Dim the light go from 25% to 50% to 75% to 100% of the power, to support low to high light level plant growth.

Automatically Memorize

Built-in memory, display your current setting after re-turning even when using a timer.

Gradual Ramp UP & Down

Multi-intensity light with gradual ramp up and down design to protect human eyes.

Smart Control for Optimal Care for Plant

Do plants grow better with more light? No! However, the right and adequate spectrum is the key as plants need sufficient energy and moderate time for photosynthesis and metabolic rest. Via ONF Link, you can connect the lights and set five groups of personalized brightness and color temperature to advance the plants growth according to their needs and species.

Apple

iOS 12.0 以上

Android

Android 8.0 - 12.0.

Supported manufacturer brands include Apple/ Samsung/ Xiaomi /Redmi/ Huawei/ Oppo/ Vivo/ Sony/ Asus/ Google/ HTC

Finer color temperature variation, for you and your plants

ONF ColorFull LED, exclusively designed for plants, incorporates technology that provides the necessary growth spectra within the 2700K-7000K warm-to-cool color range. Whether in a bright office space or a cozy home environment, it offers harmonious lighting colors for plants to thrive.
