

B LINE II

LIGHT FOR FISH KEEPERS

NATURAL COLOR LIGHT
HIGH BRIGHTNESS. MODERN DESIGN

TWINSTAR DIMMER

7 steps dimming, Timer, ON/OFF Button, Sunrise/Sunset Function.
It includes all functions you need for aquarium lighting.

SIMPLE AND GREAT FUNCTIONS

The dimmer has **7 levels of brightness control** and a **built-in timer** that can be set at intervals of 6 hours, 8 hours, 10 hours. There is an **On/Off button** to turn the light on and off at any time.

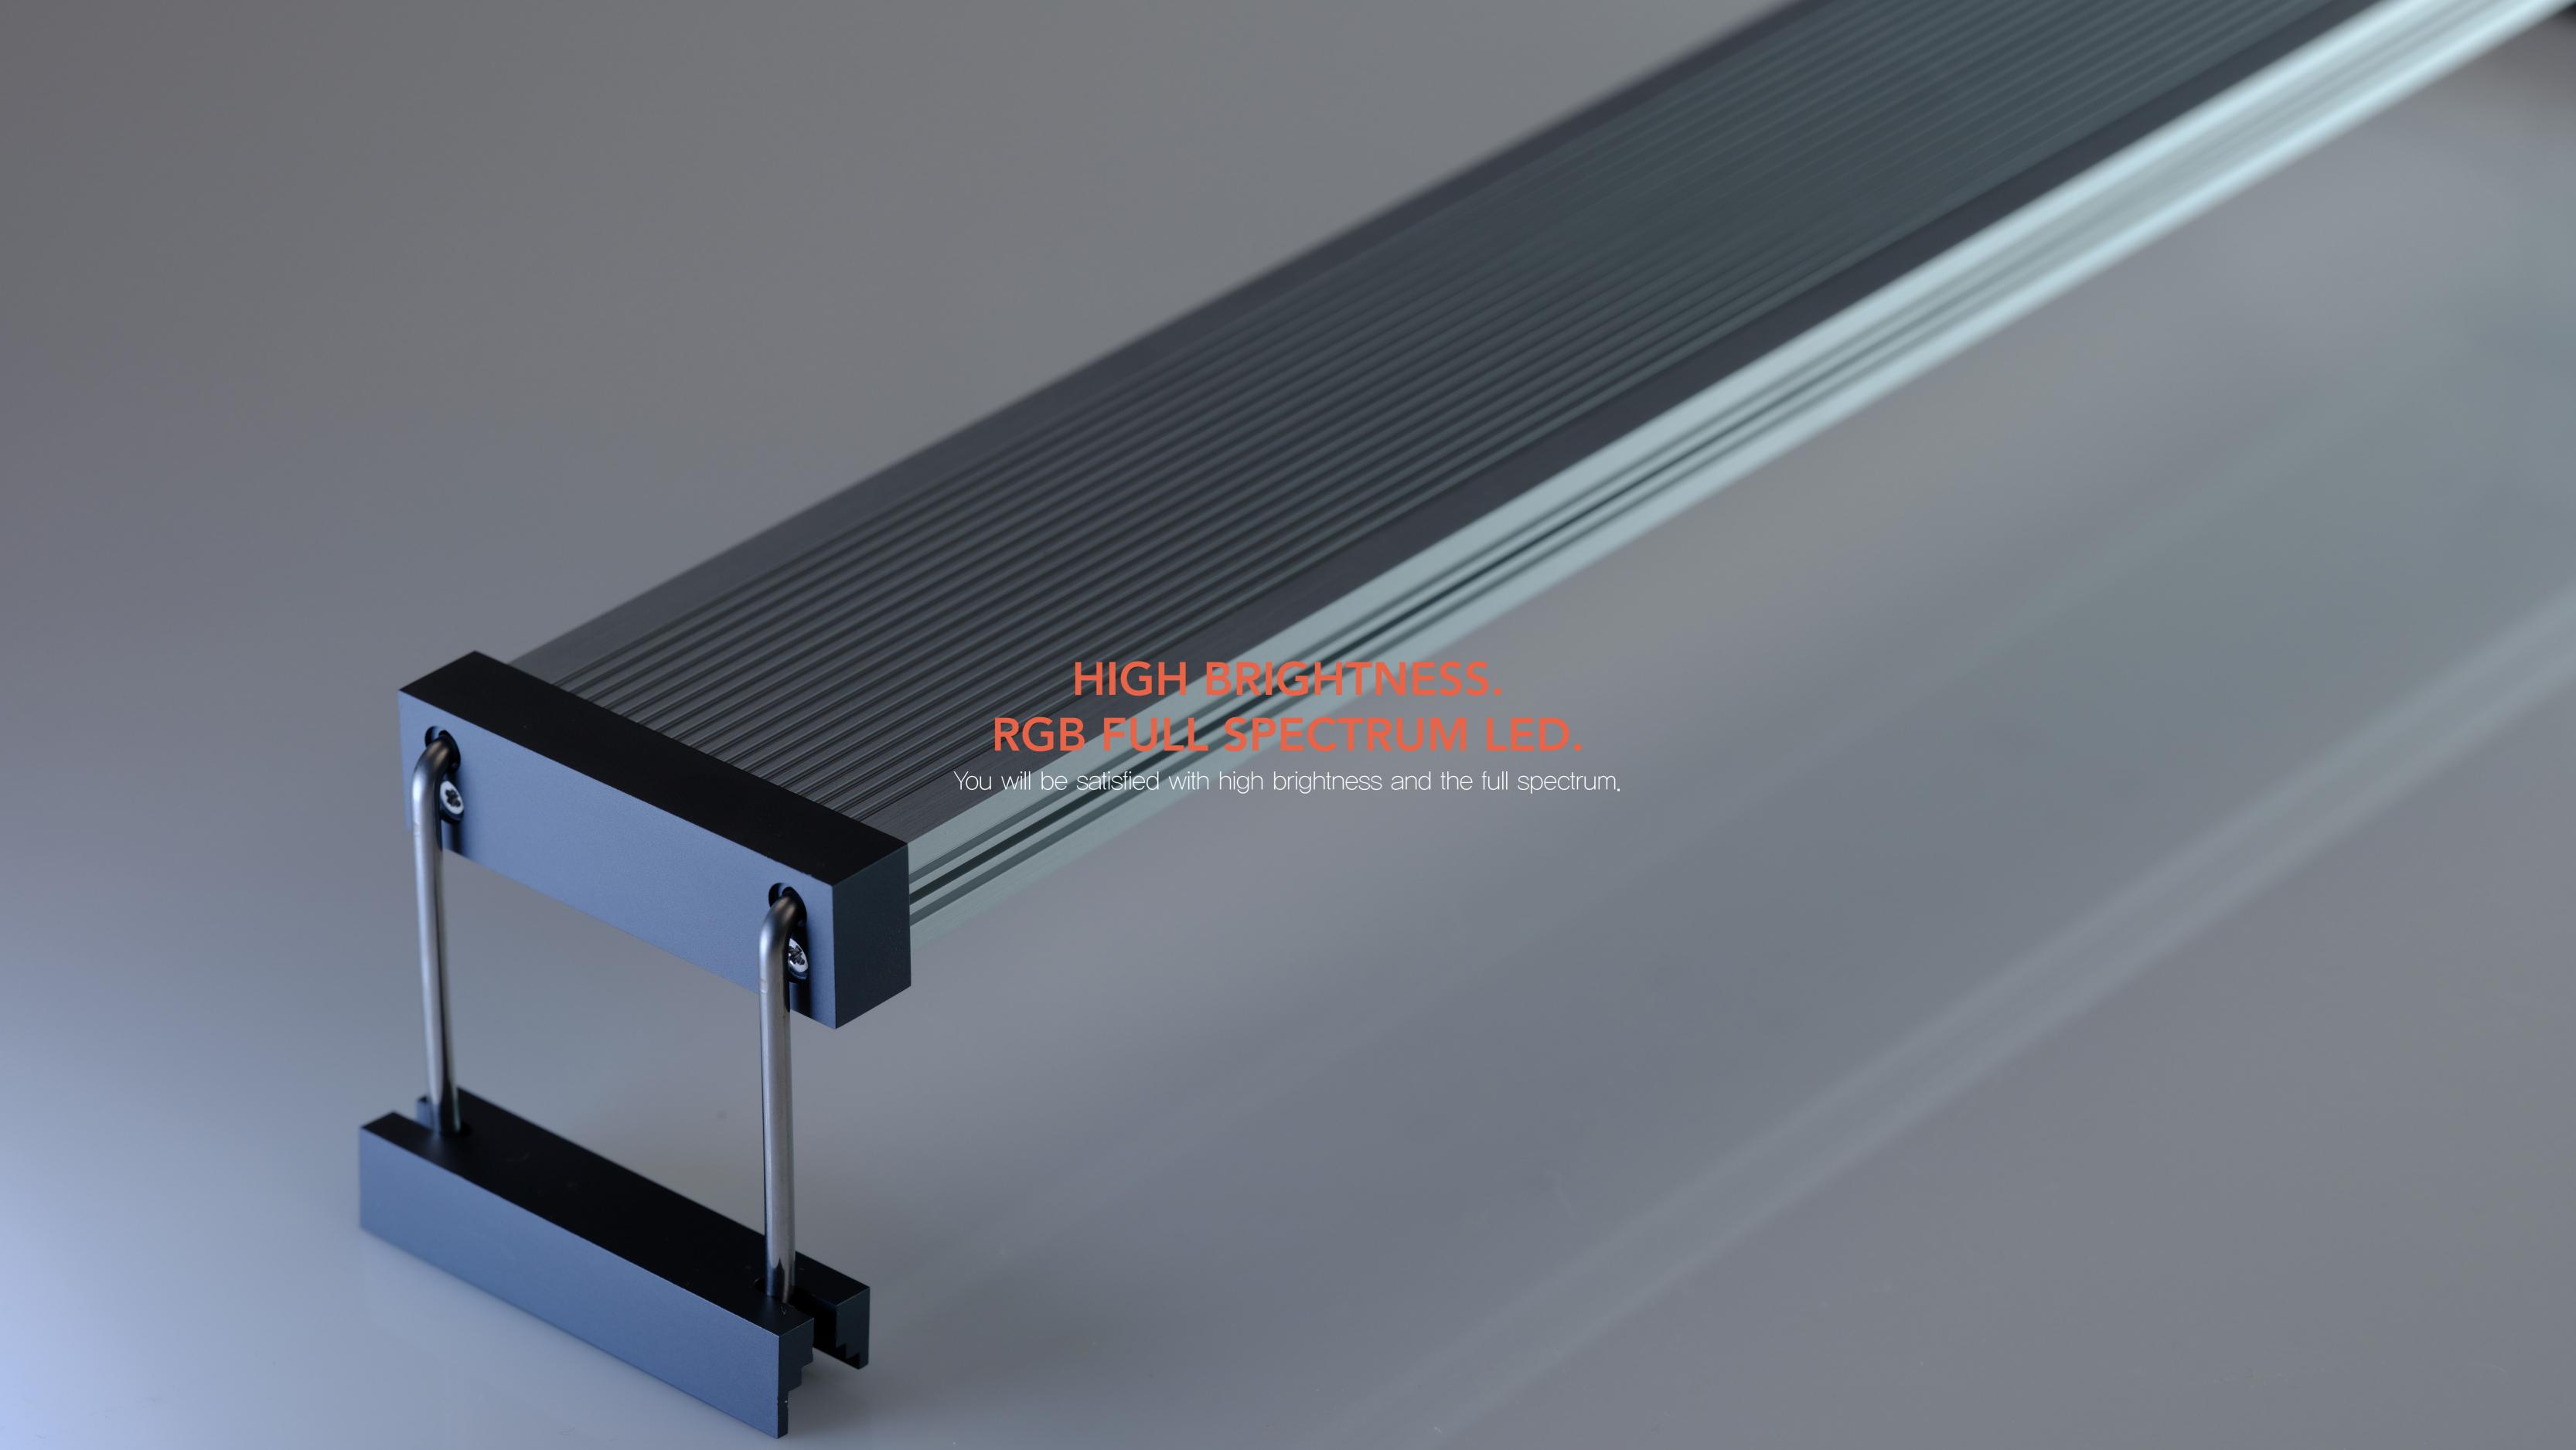

The "**Sunrise and Sunset**" function, which turns on and off slowly for 10 minutes, provides a stable habitat for the aquarium fishes.

A BEAUTIFUL LIGHT

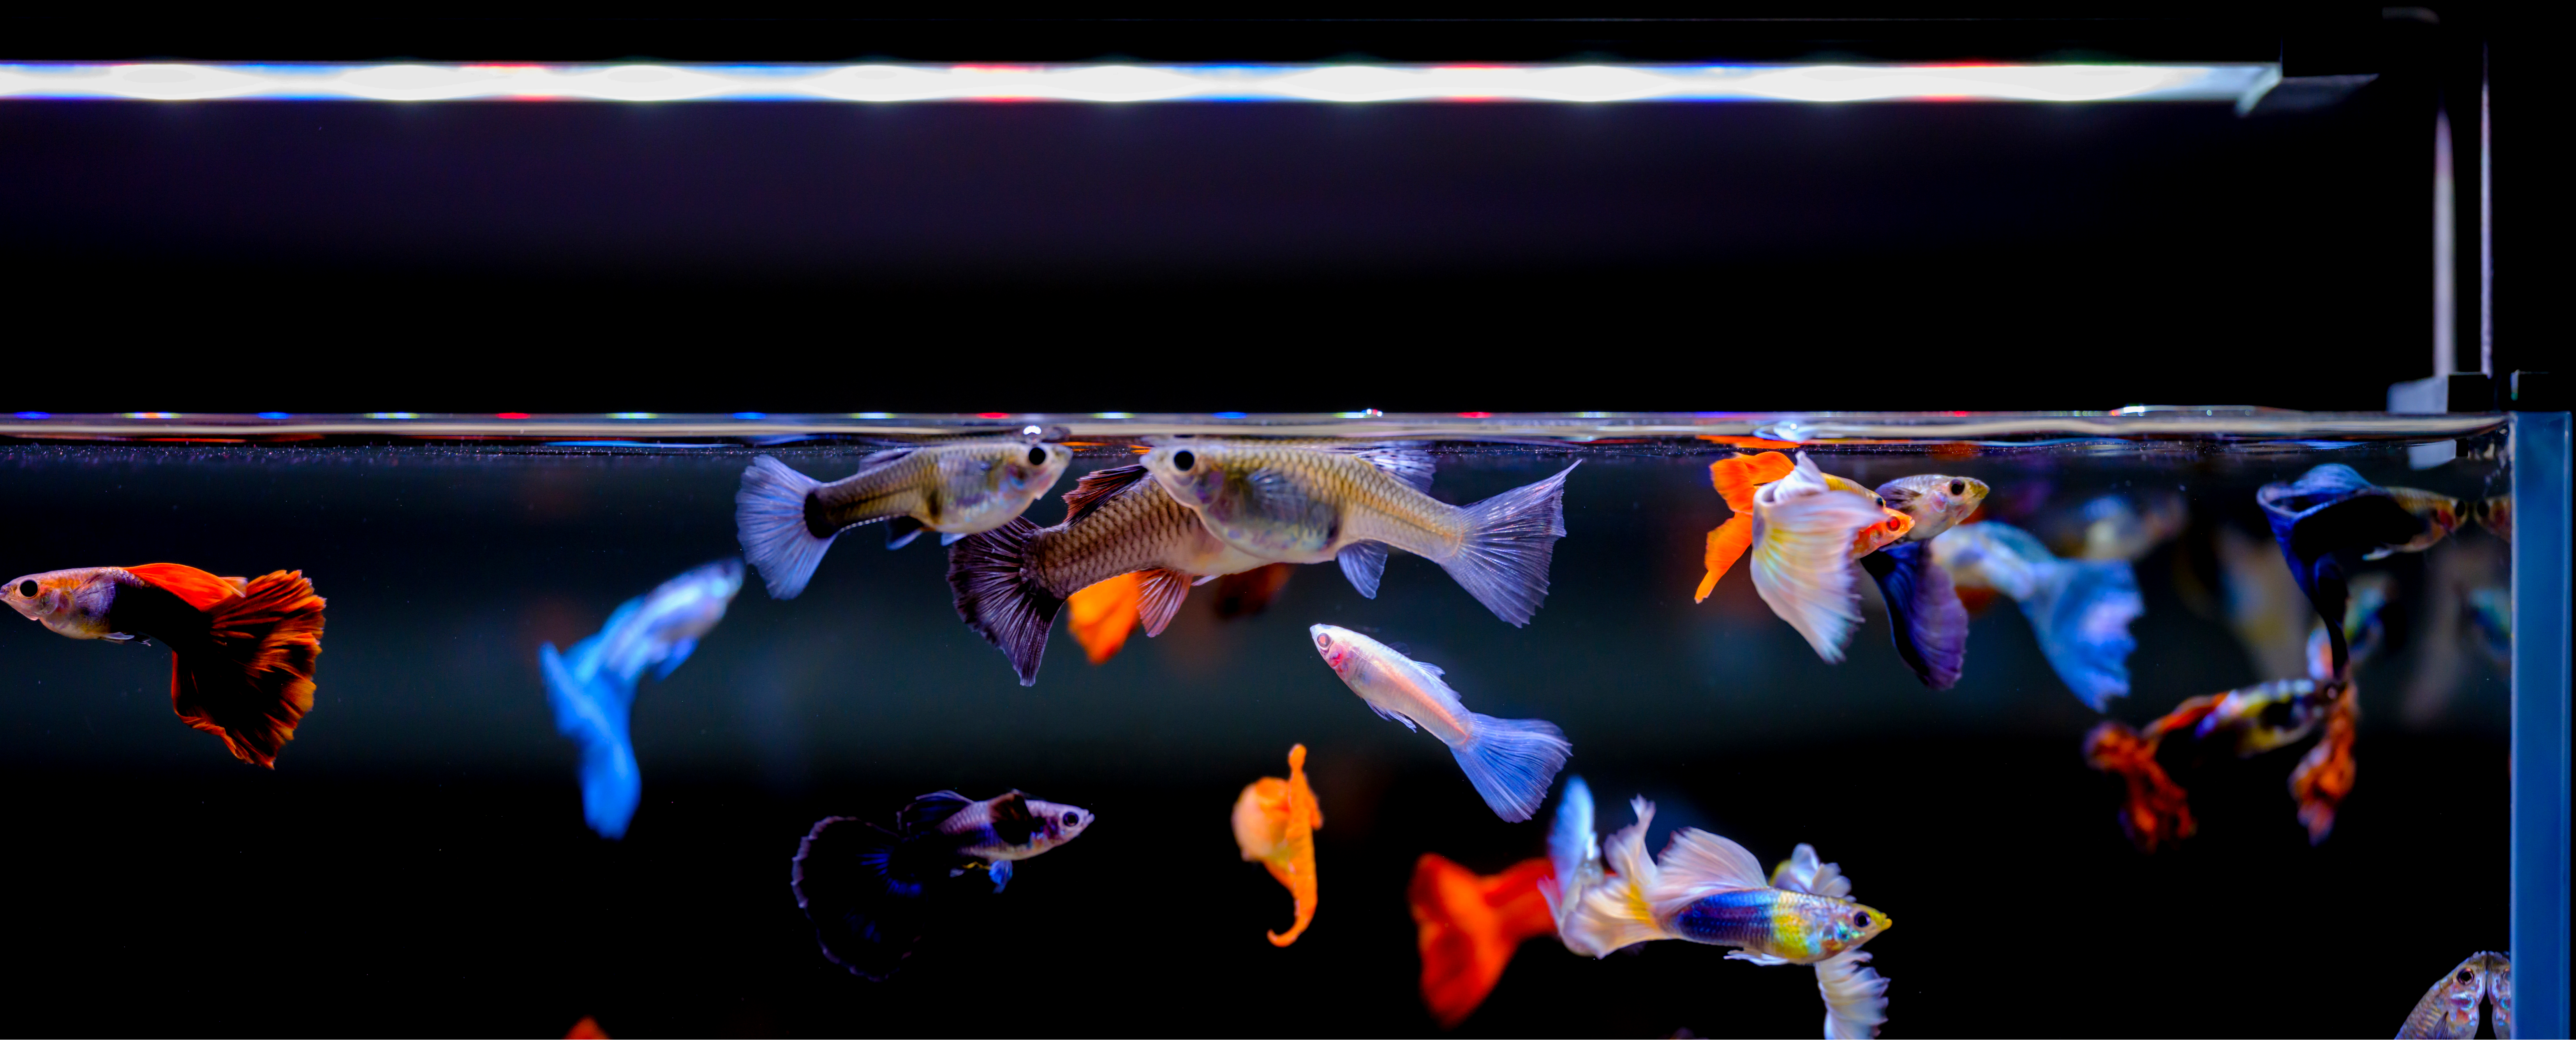

The B-line lights are beautifully made out of aluminum. It makes the aluminum surface more beautiful with the high-level processing technology.

The engineered fins are beautiful and have strong heat dissipation, so they are durable even in high brightness.

**HIGH BRIGHTNESS.
RGB FULL SPECTRUM LED.**

You will be satisfied with high brightness and the full spectrum.

BEAUTIFUL COLOR

It makes tropical fish beautiful with the RGB full spectrum.

PLANTED AQUARIUM

It can grow ground plants with high brightness.
